Curriculum Vitae

Timothy M. Vadas

Department of Civil and Environmental Engineering
University of Connecticut
261 Glenbrook Rd, Unit 2037 Storrs, CT 06269-2037
(W) 860-486-5552· (F) 860-486-2298 · vadas@engr.uconn.edu

Education:

2008	Ph.D., Environmental Engineering, Cornell University
2006	M.S., Environmental Engineering, Cornell University
2003	B.S./ B.S. Bioresource Engineering, Rutgers University

Professional Experience:

2010-	Assistant Professor, Department of Civil and Environmental Engineering, Center for Environmental Sciences and Engineering, University of Connecticut
2009	Adjunct Professor, Community College of Baltimore County
2008-2009	Research Associate, Department of Civil and Environmental Engineering, University of Maryland, Baltimore County
2003-2008	Research Assistant, Department of Biological and Environmental Engineering, Cornell University
2000-2003	Undergraduate Research Assistant, Department of Bioresource Engineering, Rutgers University
1999-2000	Undergraduate Assistant, Department of Plant Biology and Pathology, Rutgers University

Publications (bold indicates my advisee, * indicates undergraduate student):

In preparation

Luan, H., T.M. Vadas. Urban stream sources of Cu and organic matter alter metal uptake and attachment to periphyton.

Luan, H., T.M. Vadas. Influence of urban stream organic matter inputs on bioavailability and attachment of Cu to *Selenastrum capricornutum*.

Seda, **N.**, Vadas, T.M. Biouptake of nanosilver with different surface coatings in *Lumbriculus variegatus*.

Vadas, T.M., **J. Zhang, H. Luan**. Metal changes and form in a treatment wetland during a storm event.

In review

Han, Y. R. Li, C. Brückner, T.M. Vadas. Comparative outcomes of different chemical oxidations on polyacrylonitrile-based activated carbon nanofiber membranes.

Han, Y., M.Chwatko*, S. Manickam, J.R. McCutcheon, T.M. Vadas. Sorption of polycyclic aromatic hydrocarbons onto granular activated carbon and activated carbon nanofiber nonwoven.

Vadas, T.M., **M. Smith***, **H. Luan**. Water quality changes through particulate loaded porous concrete columns.

Published, accepted or in press

Turpin-Nagel, K., T.M. Vadas. 2016. Controls on metal exposure to aquatic organisms in urban streams. Environmental Science: Processes & Impacts (invited – 2016 Emerging Investigators Issue) DOI: 10.1039/C6EM00151C. Impact Factor: 2.171

Seda, N., F. Koenigsmark*, T.M. Vadas. 2016. Sorption and coprecipitation of copper to ferrihydrite and humic acid organomineral complexes and controls on copper availability. Chemosphere 147:272-278. Impact Factor: 3.137

Reports

Mahoney, J., E. Jackson, D. Larsen, T. Vadas, K. Wille, S. Zinke. 2015. Winter Highway Maintenance Operations: Connecticut. The Connecticut Academy of Science and Engineering.

Honors and Awards:

2015	NSF CAREER Award
2005-2008	EPA STAR fellowship
2003-2005	Biogeochemistry and Environmental Biocomplexity NSF IGERT fellowship
2003	Alpha Epsilon Honor Society
2002	Tau Beta Pi Honor Society
2002	Cook College Philip Alampi Scholar
2002	NJ Water Environment Association Sol Seid Award
2002	Ross, Irene & Harper Grant Scholarship

2001 Benjamin Moore and Company Scholarship
2001 Ross, Irene & Harper Grant Scholarship
2001 Golden Key National Honor Society
1999 Semper Fidelis Award

Grants:

Pending or in prep

2016 LISS, with co-PIs G. Wang, C. Kirchhoff
2016 USDA, "Assessing barriers to use of reclaimed wastewater for food production in controlled environment agriculture", PI with co-PIs A. MacKay, C. Kirchhoff, R. Raudeles,
2016 NSF, "Collaborative Research: Iron oxide-organic matter coprecipitate controls on nitrous oxide yields", PI with co-PI A. Burgin, 01/01/17-12/31/20,

Total Funding since joining UConn: $3.2 million ($1,191,813 to PI)
State or National: $2.72 million ($1,109,135 to PI)
University: $582,381 ($128,666 to PI)

Recommended and pending award

2016 EPA, "Valuation of water quality change in environment and economy context: Ecosystem services across gradients of degradation and local economic interest", co-PI (10%) with PI S. Swallow, co-PIs C. Towe, C. Kirchhoff, 08/23/16-08/22/19, $799,994

Received

2016 UConn OVPR, Ecosystem services across gradients of human-driven degradation: An interdisciplinary pursuit regarding thresholds, hysteresis, restoration, and economic benefits, co-PI, with PI S. Swallow, co-PIs C. Towe, C. Elphick, P. Liu, 06/01/16-05/31/17, $49,716
2016 UConn OVPR, Water quality and crop concerns with reclaimed water for greenhouse agricultural production, PI (92%), with co-PI R. Raudales, 06/01/16-05/31/17, $49,987
2015 GAANN: Environmental engineering at the forefront of water policy and education", PI (17%), with co-PIs G. Wang, E. Anagnostou, M. Astitha, C. Kirchhoff, J. Mellor, 09/01/15-08/31/18, $704,385
2015 UConn Provost Tier II, "Smart Resource Grids: Exploring technical solutions to grand challenges at the water-energy-food nexus", co-PI with PI R. McAvoy, co-PIs J. McCutcheon, A. MacKay, X. Yang, G. Elliot, L. Shor, W. Mustain, R. Raudales, 06/01/15-05/31/18, $450,000
2015 NSF, "CAREER: Impact of urbanization on organic carbon-metal interactions and trophic transfer in streams", sole PI, 02/01/15-01/31/20, $500,000
2014 CT Sea Grant, "Coastal wetlands at the leading edge of sea level rise: Effects of saltwater intrusion on wetland ecosystem function in urban landscapes", co-PI (40%) with PI A. Helton, $130,000

2014 NSF, "Tuning activated carbon nanofiber nonwoven membranes for selective sorption of micropollutants", PI (70%) with co-PIs C. Brückner, A. MacKay, J. McCutcheon, 09/01/14-08/31/17, $337,617

2014 CASE, "Winter Highway Maintenance Operations in Connecticut", co-PI (10%) with PI J. Mahoney, co-PIs K. Wille, E. Jackson, P. Singh, 07/01/14-06/30/15, $67,390

2013 CT Space Grant, "Functionalized activated carbon nanofiber for Ca and dimethylsilanediol removal in recycled water systems", PI with co-PIs A. MacKay, J. McCutcheon, C. Brückner, 06/01/13-05/31/14, $20,000

2013 CT Institute of Water Resources, "Investigating the effects of storm and wastewater treatment inputs on the biouptake and transfer of heavy metals in urban stream food webs", co-PI with PI Bin Zhu, University of Hartford, 03/01/13-02/28/14, $2,360

2012 UMBC, "Porous Concrete Water Quality Analysis", PI, 02/01/12 – 01/30/14, $24,955

2011 CT Institute of Water Resources, "Influence of dynamic copper speciation on bioavailability in streams", PI, 03/01/12-02/28/14, $36,017

2011 UConn Foundation, "Dissolution and aggregation of nanosilver particles in environmentally and biologically relevant solutions", 01/01/12-12/31/12, $21,483

2011 UConn Center for Environmental Science and Engineering, "Interaction between organic matter sources and metals in streams: implications for bioavailability in impacted stream food webs", $11,195

2009 UMBC Special Research Initiative Support, "The effects of DOC and biological activity on metal retention and mobility in bioretention systems", PI with co-PI Brian Reed, UMBC, $20,000

2007 Biogeochemistry and Environmental Biocomplexity small grant, *Exploring lead uptake and localization in* Brassica napus *root cells using electron microscopy and x-ray spectroscopy*, sole PI, $2,480

2005 Biogeochemistry and Environmental Biocomplexity small grant, *Enhancing the solubility of Pb and Cd in contaminated soils*, sole PI , $3,120

2004 Biogeochemistry and Environmental Biocomplexity small grant, *Lead transport mechanisms and their role in phytoremediation*, sole PI, $2,732

2004 EPA P3 Award, *City in a box: A new paradigm for sustainable living*, co-PI (with PI N. Scott, et al., Cornell), $10,000

Research Supervisions:

Major advisor

Katie Turpin-Nagel, PhD ENVE, expected completion 2020
Randi Mendes, PhD ENVE, expected completion 2020
Dorrotya Kelemen, MS ENVE, expected completion, 2017
Yi Han, PhD ENVE, expected completion 2017
Hongwei Luan, PhD ENVE, expected completion 2016
Neila Seda, MS ENVE, completed 2014
Ju Zhang, MS ENVE, completed 2012

Minor advisor
Yan Li, MS ENVE, completed 2014, PhD ENVE expected completion 2017
Lukas McNaboe, MS NRE, expected completion 2017
April Doroski, MS NRE, expected completion 2016
Jason Sauer, MS NRE, expected completion 2016
Will Jolin, PhD ENVE, expected completion 2016
Xinzhu Xiong, MS ENVE, completed 2015
Kai Zhang, MS ENVE, completed 2015
Juan Pablo Correa, PhD ENVE, completed 2014
Corinna Fleischman, PhD CE, completed 2014
Chad Johnston, PhD ENVE, completed 2013
Yuan Feng, MS ENVE, completed 2013
Jacqueline Oakes, MS ENVE, completed 2013
Nakita Lancaster, MS ENVE, completed 2012
Racquel Figueroa-Diva, PhD ENVE, completed 2011
Lauren Blazeck, MS ENVE, completed 2011
Mykel Mendes, MS ENVE, completed 2011
Dan Seremet, MS ENVE, completed 2010

Undergraduate advisor
Stephanie Hubli, 2016
Faye Koenigsmark, 2013-2015
Cheryl Leith, 2015
Elaine Karl, 2013-2014
Rob Domin, 2012-2014
Greg Rosshirt, 2013-2014
Ryan Hudock, 2012
Skyler Marinoff, 2012-2013
Malcolm Smith, 2011-2013
Michael Welch, 2011
Ryan Sullivan, 2011
Kevin McNally, 2010

Teaching:

Evaluations (Mean Instructor/Dept/Univ)

2016	ENVE3200 Environmental Engineering Laboratory, 4.1/4.3/4.6
2016	ENVE4920W Environmental Engineering Design II, 5/4.4/4.6
2016	ENVE5094 Seminar in Environmental Sci & Eng, 4.1/4.7/4.6
2015	ENVE4320 Ecological Principles and Engineering, 4.3/4.3/4.5
2015	ENVE4910W Environmental Engineering Design I, 4.6/4.4/4.5
2015	ENVE5094 Seminar in Environmental Sci & Eng, 5.0/4.4/4.6
2015	ENVE3200 Environmental Engineering Laboratory, 4.1/4.3/4.5
2015	ENVE2320 Environmental Debate, 4.0/3.8/4.1
2014	ENVE4320 Ecological Principles and Engineering, 4.8/4.4/4.5

2014	ENVE2320 Environmental Debate, 4.7/4.1/4.5
2014	ENVE3200 Environmental Engineering Laboratory, 4.0/4.3/4.5
2013	ENVE4320 Ecological Principles and Engineering, 3.8/4.2/4.5
2013	ENVE5211 Environmental Chemistry II, 4.3/4.5/4.6
2012	ENVE4320 Ecological Principles and Engineering, 6.0/8.0/8.8
2012	ENVE3200 Environmental Engineering Laboratory, 7.3/7.1/8.9
2011	ENVE4320 Ecological Principles and Engineering, 8.5/8.2/8.8
2011	ENVE3200 Environmental Engineering Laboratory, 8.3/8.0/8.9
2010	ENVE4320 Ecological Principles and Engineering, 8.3/8.5/8.8
2010	ENGR1166 Foundations of Engineering, 7.3/7.7/8.8

Activities

2015	Co-organizer, AEESP workshop on teaching with Case Study Method
2014	Yale workshop on "Developing and Assessing Students' Critical Thinking Skills"
2012	EPA Campus Rainworks Competition, with J. Clausen and 6 undergraduates from various departments.
2011-present	multiple ITL workshops, e.g. "Responding to student writing", "Assessment and evaluation"
2009	Environmental Science Laboratory, Community College of Baltimore County
2014	ITL Personal teaching assessment
2008	Guest lectures in Environmental Chemistry, UMBC
2007	Co-leader, Workshop on Interdisciplinary Collaboration, Biogeochemistry and Environmental Biocomplexity program, Cornell University
2007	Teaching Assistant, BEE 251: Engineering for a Sustainable Society, Cornell University
2007	Guest lecture, *Tailoring carbon mitigation strategies to the local area*, NtRes 431: Environmental strategies, Cornell University
2005	Co-leader, Workshop on CO_2 mitigation, Biogeochemistry and Environmental Biocomplexity program, Cornell University

Industry Experience:

2012-present	State of Connecticut, Professional Engineering License #PEN.0029103
2003	State of New Jersey Engineer-in-Training, certificate 12951
2002-2003	Assistant Engineer, Shaw Environmental and Infrastructure, Mt. Arlington, NJ
2001	Surveyor, Suburban Consulting Engineers, Dover, NJ

Service:

University

2016	Organizer, Joint NRE/ENVE Graduate Poster Session
2015-present	ENVE representative, Teale Lecture Series
2015	Participant, Graduate School Hearing Committee
2015	Review committee, Summer Undergraduate Research Fund
2014-present	Coordinator, ENVE Graduate seminar series

2014-present	Elected representative, Graduate Faculty Council
2010/13/14	Participant, CT Invention Convention, SOE
2010-present	Participant, ENGR1000, SOE
2012,2014	Participant, Open House, SOE
2012-present	Faculty advisor, Green Building Club
2012	Member, hydrometeorology search committee, CEE Department
2011-present	Member, Curriculum&Courses/ABET committee, CEE Department
2010-present	Member, ENVE graduate admissions committee, ENVE Program
2010	Chair, undergraduate education committee, CEE Department
2010	Member, space committee, CEE Department
2006-2008	Undergraduate student mentor, Department of Biological and Environmental Engineering, Cornell University
2006	Treasurer, Biogeochemistry and Environmental Biocomplexity Graduate Student Association, Cornell University
2005-2008	Reviewer, Biogeochemistry and Environmental Biocomplexity small grants competition, Cornell University
2005-2006	Workshop committee member, Biogeochemistry and Environmental Biocomplexity IGERT, Cornell University
2002-2003	Bioresource Engineering Representative, Cook College Council, Rutgers University

Educational

2016	Leader, UConn daVinci Project workshop, "Monitoring and Maintaining Stream Health in a Developed Watershed"
2015	Mentor, Research Experience for Teachers, Edmund Smith
2010	Mentor, Glastonbury High School student research, Chris Zeller

Professional

2015-2016	Member, Town of Mansfield Climate Action Task Force
2014-present	Reviewer, academic job applications, AEESP student services committee
2014	Poster session chair, GRC Environmental Sciences:Water
2014-present	Reviewer, UConn Experiment Station hatch grant
2014-present	Reviewer, USGS NIWR
2012	AGU, North America National Meeting, organized session on "Urban Biogeochemical Cycles"
2007-present	Reviewer, Environmental Science & Technology, International Journal of Greenhouse Gas Control, Ecological Engineering, Aquatic Sciences, Energy and Buildings, Environmental Pollution, Environmental Toxicology and Chemistry, Chemosphere, Environmental Engineering Science
2007	Reviewer, Teresa Heinz Scholar Grant

Professional Societies:

American Chemical Society-Environmental chemistry
Association of Environmental Engineering and Science Professors
American Geophysical Union

Ecological Society of America-Biogeosciences
