

CONSTRUCTION ENGINEERING AND MANAGEMENT MINOR

Do you want to learn how to build infrastructure, manage construction projects from design to execution, and take part in hands-on learning activities that impart real-world knowledge? Consider a minor in Construction Engineering and Management.

The Department of Civil and Environmental Engineering is pleased to offer a minor that covers the entire spectrum of construction management, preparing students for jobs in a competitive field. You'll learn about project management, scheduling, life-cycle cost analysis, construction engineering principles, and project financing. You'll apply lessons learned in the classroom to real-world projects that will prepare you for an exciting career.

UConn
SCHOOL OF ENGINEERING

COURSEWORK

Required Course:

- **CE 3220** Principles of Construction I

Elective Courses (Choose Four):
