

# JOIN UCONN EERI FOR A TALK WITH DR. ERIK BISHOP

## LESSONS LEARNED FROM EARTHQUAKE RECONNAISSANCE

FOLLOWING EARTHQUAKES IN CALIFORNIA (2019), MEXICO CITY (2017), JAPAN (2011), CHILE (2010), AND CHINA (2008)

**15  
APRIL  
2025**

with

**DR. ERIK BISHOP**  
Principal at Reid Middleton, Inc.

The UConn EERI Student Chapter has been selected to participate in the 2024-2025 Friedman Family Visiting Professionals Program! As part of this program, we are excited to host Dr. Erik Bishop, Associate Principal at Reid Middleton, Inc. for a talk on earthquake reconnaissance. Refreshments will be served.

Faculty, graduate, and undergraduate students welcome!

**TUES, APRIL 15TH**

**2:00 – 3:15 PM**

**ROOM: GW-001**

Dr. Erik Bishop is an Associate Principal at Reid Middleton, Inc., with extensive experience working on seismic evaluation, rehabilitation design, and earthquake response technologies. He has participated in post-earthquake reconnaissance efforts following major earthquakes in China, Chile, Mexico, and California. His work includes seismic resiliency studies, safety evaluation trainings, and the development of innovative earthquake response tools for emergency managers.

**Join us for an exciting opportunity to engage with a leading expert in earthquake engineering!**
